Myers Diesel Repair, Inc. is proud to announce we have been contracted as one of 3 repair shops in California to head up the new emissions pilot program for the San Joaquin Valley Air Pollution Control District.

*The program includes eligible repairs for:

- ✓ DPF cleaning & replacement
- ✓ Testing of DPF failure including opacity & smoke testing
- ✓ Other District approved items such as:
EGR valves, EGR coolers, SCR systems, Sensors, Turbo chargers, Doser system, DEF system, Injectors, CAC cooler leaks

*The program will pay eligible repairs up to 90% including parts, labor and tax

*The fleet must be fewer than 20 vehicles and vehicles greater than 14,000 lbs., with a 2007 or newer engine model year

*Vehicles must be currently registered in California and in the District's boundaries

Contact us at 661-615-1200 or come by our shop at 9606 Enos Ln, Bakersfield for further information on the Guidelines and Program Application. This is a **GREAT** program and a **GREAT** opportunity!!
